

TEACHERS ARE THE ARCHITECTS OF A NATION AND THE
CHILDREN ARE ITS FUTURE.

New World Montessori School is a product of over 40 years of Montessori experience, study, and observation. We help the whole child develop through the Montessori Method of respect, individualized education, and independence. Our goal is to help each child to develop the love learning. Teachers work as a team with the same group of children to provide consistency and an opportunity to really know and nurture each individual child as they grow.

The growth of the school has necessitated the school to be always on the lookout for talented and qualified individuals to join our team of dedicated teachers and assistants to impart and share their knowledge and expertise. We are always willing to look at the resumes and interviews of potential teachers and assistants.

Our school offers a very conducive environment and a very friendly and cooperative group of parents. We encourage willing and able individuals to submit their applications with full details of their qualifications, background, experience, and field of special interest. The school presently consists of one infant room for ages 6 months to 18 months, one toddler room for 18 months to 2-1/2 years, one transition preschool for 2 to 3 years, three primary 3 to 5 years, one lower elementary and one upper elementary room. We are situated in Palms on the west side of Los Angeles not very far from Santa Monica and Venice. Applicants can manifest their interest in a myriad of ways. They can personally submit their resumes to the school office. They can mail it to the school address: 10520 Regent St. Los Angeles, CA 90034, or email adminnwms@gmail.com. Interviews are arranged after a careful review of the resumes. It is important therefore that all applications have a contact phone number and address.

All communications should be marked for the attention of:

Yasmeen Chunara – Director, New World Montessori School.
